

Established in 1989 we soon became one of the biggest distributors of plastics in the Bristol to Hereford area. Having seen many competitors come and go Kents are now the longest established plastics supplier in Bristol.

We have broadened our product range to offer a greater range of low maintenance building products than ever before and strive to provide the best possible service to builders, self builders and keen DIYers. Kent have showrooms in Bristol and Hereford and permanently exhibit at the National Self Build & Renovation Centre at Swindon. We will be at the Scottish Self Build & Renovation Centre from 2008. Kent regularly exhibit at shows and our web blog will have the latest dates. You are welcome to sign up online for our regular newsletters and special offers.

FULL HEIGHT GLASS

Great for...

decking

balconies

stairways

pool surrounds

FULL HEIGHT BALUSTER

SEMI-FRAMELESS GLASS

Kent Aluminium and Glass Balustrade systems are available in a choice of designs to compliment your view.

Our **Semi Frameless Glass system** is fantastic when you do not wish to spoil your outlook and our **Full Height Glass system** gives a big view with a more secure handrail. Our **Full Height Baluster system** is a more traditional vertical railed system without glass for a wonderfully crisp look.

Constructed from Aluminium, prices for our balustrade systems are very competitive when compared to stainless steel and you can have a choice of powder coated colour finishes to match with your design.

Kent Balustrade systems have been BSi tested for impact strength and are made to measure for your installation.

FEATURES

- Maximum 99mm clearance between balusters for safety
- Recessed bottom rail to locate and secure balusters
- Cast aluminium caps colour-coated to match hand rail
- Exclusive safety-grip or round hand rail option
- Non-weld, hidden fastening system
- A wide range of powder-coat colours to choose from
- Toughened safety glass infill
- Secure inter-locking posts for modular installation
- Durable aluminium construction
- Custom made to suit most applications

SPECIFICATIONS

Durability

All aluminium balustrades are covered by a durability requirement

Standards

All products are fully BSI tested to comply with BSI 6180:1999

Finishes

Kent Aluminium Balustrade is available in an extensive range of colour finishes – please ask for details

Glass Types

Toughened glass

Care and Maintenance

We recommend washing your aluminium balustrade every 6 months to remove accumulated dirt grime and air-borne pollutants. In areas where pollutants are more prevalent such as coastal or industrial areas, cleaning every 3 months is recommended.

ORDERING

If you require further information or a quotation, or want to make an order please contact us using the details below.

We are happy to discuss your requirements or can arrange a meeting with you if this is more convenient.
